

Here at Corpus Christi Precision Cancer Center, we aim to provide the highest level of care one can receive with the most compassionate and caring staff to provide this care. We know this is a difficult journey and we are here providing state-of-the-art cancer treatment in a friendly environment.

“Our patients are not just a number to us” We utilize the same FDA approved precision radiation therapy equipment found at nationally acclaimed academic centers. We strive daily to provide a nurturing environment where patients and their families can rest assured that they are receiving superior treatment while in the hands of a highly trained Physician with staff that will support them along the way. This was the vision for Corpus Christi Precision Cancer Center before its inception and we will always stay true to this mission.
